me	17:01	
sir see green color highted records	17.01	
Somaya Sarathbabou	17:01	
?	51	
me	17:02	
that lease period exists b/w other units		
ramchandran pls see comments		
Somaya Sarathbabou	17:04	
hmmm		
k then we dnt do anythng		
me	17:04	
s sir		
Somaya Sarathbabou	17:05	
u der?		
4/30/2013 12:00:00 AM		
y u sing dates liek this AM or PM		
y ur nt using like		
12:00:00		
00:00:00		
0r 18:00:00		
?		
Rajalakshmi R joined group chat.		
Somaya Sarathbabou	17:05	
y u use AM PM?		
me	17:06	
sir i'm copied from toad		
there it II show like that		
viewing via form it won't show like this sir		
Somaya Sarathbabou	17:07	
nooooo		
i m ask		
in tabel hw its tored		
yu use AM PM in tabel oly i asking		
me	17:08	
we gave date datatype oly		
Somaya Sarathbabou	17:08	
hmmmm		
me	17:08	
but all II store like this oly		
Somaya Sarathbabou	17:08	
so fr nite it II sjhow pm ah?		
show		
me	17:08	
S		

Somaya Sarathbabou	17:09	
hmmmm	17.00	
coz nrmally it II show in 24 hr format		
instead of am pm		
in table		
so i asked		
me	17:09	
but here its saving like this sir		
Somaya Sarathbabou	17:10	
ur suing date time ah?		
me	17:10	
previously we used squireel know		
Somaya Sarathbabou	17:10	
?		
me	17:11	
there it won't show like this		
date oly we can see		
Somaya Sarathbabou	17:11	
hmmm		
me	17:11	
no i'm using date datatype oly sir		
Somaya Sarathbabou	17:11	
hmmmm		
https://dev.mysql.com/doc/refman/5.1/en/datetime.html		
chk this wen u have time		
me	17:11	
k i II check sir		
Somaya Sarathbabou	17:12	
nd then		
so now fr dupl names		
fr furutre		
how II u restrict?		
fname I name		
we need to reject		
fr every CC u shd chk		
this		
nd throw mesg like		
me	17:12	
need to check constraints		
Somaya Sarathbabou	17:12	
name alredi exists liek that		
me	17:12	
and form side validation also		
Somaya Sarathbabou	17:13	
	'	

well like	yes

inform SN nd kum abt it to incl this in forms also to catch the err mesag by SP me 17:15 k sir Kumar R 17:16 i told already html version starting itself	i II do		
to incl this in forms also to catch the err mesag by SP me	Somaya Sarathbabou	17:15	
to catch the err mesag by SP me 17:15 k sir Kumar R 17:16 i told already html version starting itself	inform SN nd kum abt it		
me 17:15 k sir Kumar R 17:16 i told already html version starting itself	to incl this in forms also		
k sir Kumar R 17:16 i told already html version starting itself	to catch the err mesag by SP		
Kumar R 17:16 i told already html version starting itself	me	17:15	
i told already html version starting itself	k sir		
	Kumar R	17:16	
this sceanrio	i told already html version starting itself		
	this sceanrio		

what u told that time		
Somaya Sarathbabou	17:17	
hmmmm	17.17	
cz tht time GAS too slwo wat to do		
Kumar R	17:17	
hmm means ?	17.17	
	17:10	
Somaya Sarathbabou	17:18	
nw PHP faster so i implemented		
i agree w u		
GAS too slow		
so wat didnt do		
alredi taking 1000 hrs in GAS fr cretae a cust		
so we dnt impl this check		
bt nw Div need to do		
need to impl		
cionstraint easy oly		
in fact no need SP		
need to create FK fr these 2 HDRS		
Kumar R	17:18	
in script side all r used multiple option in all forms		
radio button		
so again need to change all		
rite		
super		
Somaya Sarathbabou	17:19	
hmmmm		
okw e I hold this then		
we do this later		
Div der?		
Kumar R	17:19	
no u discuss and tel		
Somaya Sarathbabou	17:19	
kk		
div?		
Kumar R	17:20	
after that u ll tel need to impl		
like that		
so better u think tel		
Somaya Sarathbabou	17:20	
well need to think if easy now or later		
Kumar R	17:20	
now itself		
Somaya Sarathbabou	17:20	
i need it	-	

bt which is better u tell		
now or later		
?		
u tell		
Kumar R	17:20	
need to means need to change script side		
Somaya Sarathbabou	17:20	
if u dnt do now		
u II srtill do later		
Kumar R	17:20	
all customer and payment forms		
Somaya Sarathbabou	17:21	
ok better change nd remove tht dupl ld check		
2D rite?		
extra 2D?		
Kumar R	17:21	
hmm		
Somaya Sarathbabou	17:21	
div u der?		
div?		
me	17:21	
ya sir		
Somaya Sarathbabou	17:22	
ok		
u need to use		
FK concept		
dnt write SP to chk the dupl names		
ur constraint II reject dupl names autom fr every insert		
it II chk		
pair of fname+lname		
?'		
cz u cnt take v long to chk this		
otherwise exec timeoo ut II come		
tmeout		
so ur script shd be super fast		
srry constraint		
Kumar R	17:22	
if need to do any form validation		
for duplicate name		
validation		
me	17:23	
k but what to do mig records?		
Somaya Sarathbabou	17:23	
-		

tht we II use like fname1		
Iname2		
liek that		
	17:23	
me	17.23	
k	17:00	
Somaya Sarathbabou	17:23	
kumr form side then nbeed to rmove extra dupl rec check		
nd tht id?	4= 04	
Kumar R	17:24	
?		
not understand		
Somaya Sarathbabou	17:26	
u knw we did		
extra id check fr all forms tht need to remove rite?		
div chk this cust in DEV now in form PHIONG	TZE WUI	
me	17:27	
k sir		
Somaya Sarathbabou	17:27	
kum?		
u knw we did		
extra id check fr all forms tht need to remove rite?		
u knw we did		
extra id check fr all forms tht need to remove rite?		
Kumar R	17:27	
s		
Somaya Sarathbabou	17:28	
hmmm k then do it acc		
put in SS		
inform all plz		
allill		
Il remove tht fn in form		
Kumar R	17:28	
all i ll put in acc		
Somaya Sarathbabou	17:28	
acc means?		
Kumar R	17:28	
after that u II tel		
Somaya Sarathbabou	17:29	
kk		
haioo agreed		
u inform all		
div II do		
u all crrct it in forms		
nfrm SN also		
THITH OIV AIGU		

Kumar R	17:30	
better u send one simple mail i'm also tel to all		
if i tel mean all II fire me		
so u send one mail		
i need to change all my forms		
Somaya Sarathbabou	17:31	
hqioo tell sn he ll send		
div this is fr u		
http://stackoverflow.com/questions/4364458/how-to-prevent-of-duplicating-	records-in-mysql-insertion-qu	eries
http://stackoverflow.com/questions/2852935/sql-conditional-row-insert		
i repeat ur constraint shd be super fast DIV?		
me	17:31	
k sir		
Kumar R	17:31	
ayiooo i ll tel that's not a pbm def he ll fire me		
y u got CR		
like that		
Somaya Sarathbabou	17:31	
noooo		
u tell its me		
ntu		
Kumar R	17:32	
k		
i II tel to sn		
Somaya Sarathbabou	17:34	
bcz		
u chk this cust in cc cnacle form		
v comedy		
phiong		
cancel forms		
der div?		
plz note those URLS vv impt to use fr dupl insert reject		
can also use unique index		
vv fast		
Kumar R	17:34	
not oly cancel all form same comedy		
oly		
Somaya Sarathbabou	17:34	
hmm super		
vv bad		
me	17:34	
unique index we can use for one by one field oly		
Somaya Sarathbabou	17:34	
this soln		

Kumar R	17:34	
i told 10000000000000000days before		
Somaya Sarathbabou	17:34	
we need to chk 2 HDRS		
me	17:34	
not for pair of headers		
Somaya Sarathbabou	17:34	
go fr FK or unique indx		
Kumar R	17:34	
u never consider my word befoire		
Somaya Sarathbabou	17:35	
noooo		
thtrs fr GAS		
GAS is too slow alredi		
so we did like this i remember		
Kumar R	17:35	
GAS or PH P		
Somaya Sarathbabou	17:35	
i accept u		
Kumar R	17:35	
same		
Somaya Sarathbabou	17:35	
noooooooooo		
u chk GAS now		
fr CC it takes 1000 hrs		
fr one cust CC it takes 100 hrs		
Kumar R	17:35	
in GAS u told 10000CR one by one		
Somaya Sarathbabou	17:36	
hmmmmm		
Kumar R	17:36	
so added one by one		
Somaya Sarathbabou	17:36	
tht s y less miant		
maint		
Kumar R	17:36	
now php also doing same		
Somaya Sarathbabou	17:36	
if i allloww all bad data		
Kumar R	17:36	
after that u II tel PHP		
Somaya Sarathbabou	17:36	
today Div II suffer fr patching		
Kumar R	17:36	

loading 1000hrs		
Somaya Sarathbabou	17:36	
heheheh	11.00	
i hope not		
tht is in ur hands		
Kumar R	17:36	
II se	17.50	
Somaya Sarathbabou	17:37	
ur senior u II tell tht	17.57	
if u dliver less codes		
then CC II be fast		
or else again 1000 hrs		
Kumar R	17:37	
	17.57	
no senior or junior or same lauguage oly		
	17:37	
Somaya Sarathbabou we II see	17.37	
Kumar R	17:37	
	17.37	
not diff language		
k	47.07	
Somaya Sarathbabou	17:37	
we need to chk hw mny secs takes CC SP?	47.07	
Kumar R	17:37	
leave that toplic	1	
Somaya Sarathbabou	17:37	
nd CC form?		
div?		
der?		
div?		
Kumar R	17:38	
div ur time start		
now sir asking u oly		
me	17:38	
kum didn't give chance me to chat sir		
Somaya Sarathbabou	17:38	
cn u tell me by pass param to a CC SP		
nd calc the exec time fr me		
w/o using form		
thn use form nd tell em		
so 2 times u gve me		
one direct SP		
me	17:38	
i think 1 or secs oly		
Somaya Sarathbabou	17:39	

17:39		
17:40		
17:40		
17:40		
	17:40	17:40

1 SL
Thnks, follow these points fr ur tasks:
1. Complete EILIB, on a daily basis, inform the team members abt the availability of the new functions in GIT.
2. U shd commit ur work in GIT first, before inform them abt ur new functions in EILIB
3. then it s their responsibility to gve u feedback later after their testing.
4. dnt wrry, form owners are responsible for the entire/whole functioning of each of their own forms.
5. suppose , in a CC creation, after their delivery, if the cal events nt updating properly, i II ask only the form owner and not u, although ur
script has defect, form owner didnt test well, so both parties II get the defect.
6. fr tht, i ask them to test welli all ur fnctns now itself!
I hope u II close CAL,DOCS,SS by this week. u II do the formatting of Docs and nt anyone else. Other ppl has their own forms to do
Of course u can ask help from Puni/Kum.
Plz close earlier SL, then oly all cn close their CAL, DOCS,SS items!
2 PHP team,
Plz upload all ur latest dev in GIT immed. Nooone need to upload in GAE hereafter, SL also wont do.
SN II deploy directly from GIT to GAE.
Grin deploy directly norm of the Gric.
All DEV tests to be done by LOCAL GAE SDK & no need GAE to test,
extract from GAE SDK DOC:
The development are the simulate the series are tided to the Court of
"The development server also simulates the services provided by App Engine PHP SDK libraries (e.g. Datastore, Memcache, Task Queue) by performing their tasks locally. Note that when your application is running in the development server, you can still make
remoté API calls to the production infrastructure using Góogle APIs HTTP endpoints."
Bt all shd make sure after deploy in GAE by SN, tht all ur forms wrking well, if not chk w SN hereafter.
Make sure u merge properly when more than 1 person edits the same file.
The final person who merges the file II be responsible fr the defect, so make sure merge of a file is done correctly and that noone has to be
blamed.
This II save time fr the whole team.
Thnks fr all ur co-operation.
3 All II stop their wrk tmrw and chk latest ver in GIT, if working or not. Can u imagine the time wasted here?
noone follows instructions:
indicate ind
all team shd push their latest scripts from a wrking base ver
2.common files(PHP sys files,etc) to be checked by SL,Kum in git.
3. SN II then deploy from GIT nd then all II check if all the latest ver is available in the GAE form!
I seek all co-operation in this.piz help!
if like this, we II close EI in 10000D!
3 Wen u plan to close all? seems to be u hve less wrks only, as form owners doing most?
As i told u, GAS part shd have oly doc replace, alll doc related functions only, i shd not see a single 'if,else,case, condition,,,etc in GAS lib, all shd be done in PHP side.
SN,
chk if those 4 functions really needed in EILIB or not, bt nooone shd repeat those functions inside their script, all shd reuse max using eilib!
 Fr eg i told kum to insert 'upload file' inside eilib, so make sure of those things.
N
Also reject all delivery wich has GAS codings wich cn be dione in PHP side, strict vvv min oly shd be in GAS side liek docs, SS part only!
We plan to close EI by tmrw. Next Friday we shd PROD EI PHP after 1000 tests.
Start creating GAE UAT env under EI PROD domain. We II use HTML PROD project fr GAE PROD also
Have u collected all DB side scripts in order to run in PROD wrt EI PHP CR?
U II PROD DB/Front end at the same time. We II do transition next Sunday.
POST IN SO FOR CALLING JAVASCRIPT FUNCTION IN CONTROLLER IN CI THROUGH AJAX
But its working in normal php coding. How to execute the javascript function in controller via ajax
